

# Taiwan Medical Devices Cooperation Mission to Thailand

September 9<sup>th</sup> (Monday) 2019

Grand Ballroom, 4<sup>th</sup> Floor, Radisson Blu Plaza Bangkok Hotel  
(BTS Asoke Exit 6 / MRT Sukhumvit Exit 2)

**Taiwan has competitive Medical & ICT industry and well- known for high quality medical devices around the world.**

**Now!! Taiwan External Trade Development Council (TAITRA) and the world famous high-tech industrial park, Hsinchu Science Park from Taiwan, lead 16 potential Taiwan medical companies to Bangkok, Thailand to held the Taiwan-Thailand Medical Business Cooperation.**

13:30 **Registration**

13:55 **Introductory remark** – Andrea T.J. Hsu, Deputy Director-General  
Hsinchu Science Park Bureau, MOST

14:00 **Opening- Taiwan External Trade Development Council**

14:00 **Taiwan-Thailand Medical Business Meeting –**

Each Round has 30 mins.

Welcome to bring DM/ Sample/ Notebook for meeting.

Please note the reminding bell and prepare to change round.

- 14:00-14:30: First round.
- 14:30-15:00: Second round.
- 15:00-15:30: Third round.
- 15:30-16:00: Fourth round
- 16:00-16:30: Fifth round
- 16:30-17:00: Sixth round

17:00 **Coffee Break & Networking**

17:30 **End of Meeting**

18:30 **Networking Dinner (The Suite, 3<sup>rd</sup> Floor)**

# 曼谷台灣貿易中心 Taiwan Trade Center, Bangkok

## รายละเอียดงานและวิธีการลงทะเบียน

Taiwan Trade Center, Bangkok หรือ สภาส่งเสริมการค้าและการส่งออกแห่งไต้หวัน ประจำประเทศไทย ขอเรียนเชิญท่านเข้าร่วมในงานพบปะทางธุรกิจ กับกลุ่มบริษัทผู้ผลิตสินค้าจากไต้หวัน

- ชื่องาน: 'Taiwan Medical Devices Cooperation Mission to Thailand 2019'
- กลุ่มสินค้า: อุปกรณ์อัจฉริยะทางการแพทย์ Smart Medical & Smart Healthcare
- จุดประสงค์: เพื่อให้บริษัทไทยที่ต้องการนำเข้าสินค้าจากไต้หวัน ได้พบปะพูดคุย และทำความรู้จักกับบริษัทไต้หวันซึ่งเป็นผู้ผลิตโดยตรง
- ลักษณะของงาน: การจัดแสดงสินค้าที่ประชุม ท่านสามารถเดินชมสินค้าในงานหรือทำนัดพูดคุยเจรจาธุรกิจได้เช่นกัน
- วัน: วันจันทร์ที่ 9 กันยายน 2562
- เวลา: 13:30 – 17:30 น.
- สถานที่จัดงาน: ห้อง Grand Ballroom ชั้น 4 โรงแรม Radisson Blu Plaza Bangkok (BTS Asoke Exit 6 / MRT Sukhumvit Exit 2)
- ค่าใช้จ่าย: ฟรี/ ไม่จำกัดจำนวนผู้เข้าร่วม
- จำนวนบริษัท : 16 บริษัทไต้หวัน (ดูรายละเอียดได้จากตารางที่แนบมาด้านล่าง)

\*\*\*\*\*

ติดต่อ คุณยิ่งพันธ์ โทร 02-651-4470 E-mail: [yingpun@taitra.co.th](mailto:yingpun@taitra.co.th)

**\*\*กรุณาเตรียมนามบัตรสำหรับเจ้าหน้าที่ ณ จุดลงทะเบียนนะครับ ขอขอบคุณครับ\*\***

# 曼谷台灣貿易中心 Taiwan Trade Center, Bangkok

## Event Information and Registration

We are Taiwan Trade Center, Bangkok (TAITRA), we are very pleased to announce that TAITRA is going to host the trade mission and business matching again.

- Event Name:** 'Taiwan Medical Devices Cooperation Mission to Thailand 2019'
- Product type:** Technology Innovation for Smart Medical & Smart Healthcare Devices
- Objective:** Making the opportunities for Thai companies to meet with Taiwanese Suppliers.
- Date:** Monday 9<sup>th</sup> September 2019
- Time:** 13:30 – 17:30 pm
- Place:** Grand Ballroom, 4<sup>th</sup> Floor, Radisson Blu Plaza Bangkok Hotel (BTS Asoke Exit 6 / MRT Sukhumvit Exit 2)
- Number of companies:** 16 Companies (Please kindly check the list of the company in the table below)
- Price:** FREE of charge!

\*\*\*\*\*

**Register please click here!!**

<https://forms.gle/wGpBFKy4sPFfrKFk8>

Thank you so much for your consideration and kindness in advance. If you have any inquiry, please feel free to contact K.Yingpun ([yingpun@taitra.co.th](mailto:yingpun@taitra.co.th)) Tel. 02-651-4470

**\*\*Please kindly bring your business cards to the registration desk in front of the seminar room\*\***

## **Taiwan Medical Devices Cooperation Mission to Thailand 2019**

Date: September 9<sup>th</sup> (Monday), 2019 Time: 13:30 – 17:30

Location: Grand Ballroom, 4<sup>th</sup> Floor, Radisson Blu Plaza Bangkok Hotel

(BTS Asoke Exit 6 / MRT Sukhumvit Exit 2)

### **Company Introduction**

1. **Advanced Biomedical Technology Inc. (ABT).** [www.advbiomedtech.com](http://www.advbiomedtech.com)

Advanced Biomedical Technology Inc. (ABT) is a company focus on medical-grade biodegradable 3D printing materials and also provide contract manufacturing service of medical implant to customer. Through our proprietary raw materials manufacturing technology platform and medical devices ODM/OEM platform, ABT focus on providing comprehensive medical implant OEM/ODM service for all kinds of customers who devoting in customized medical 3D printing application. Right now, we have completed some customized projects related to orthopedics and plastic surgery with Taiwan leading health care group like Macky Hospital and ChangGung Medical Foundation.

2. **Caduceus Biotechnology Inc.** <https://www.caduceus.com.tw/>

Caduceus Biotechnology Inc, derived from Industrial Technology Research Institute of Taiwan in 2016, is an innovative company focusing on the design and fabrication of Micro Array Reader and the related customer tailored products. All of our team are highly experienced in the field of optoelectronic and biomedical engineering.

3. **Eikon Healthcare Device Corp.** <http://eikon.en.taiwantrade.com>

Founded in 1988, "Eikon Healthcare Device Corp" is a professional manufacturer of electronic blood pressure monitors in Taiwan. Eikon is 100% manufactured in Taiwan and has cooperated with Japanese technology for many years. The product design is excellent and the quality control is stable. It has obtained the FDA, European ISO 13485、 CE and Taiwan's excellent manufacturer GMP certification.

**曼谷台灣貿易中心**

**Taiwan Trade Center, Bangkok**

Eikon's blood pressure monitor products include the general arm and wrist type & the recently new introduced color blood pressure monitor and SpO2 sensor chip.

**4. Faspro Systems Co., Ltd.** [www.fasprosystems.com](http://www.fasprosystems.com)

Deliverable creation with good execution is corporate culture of Faspro Systems who owns Fasmado brand. We commit to develop differential products with unique technology on image with special auto-focus, wireless and high-quality video to facilitate education and documentation of dental/medical process.

**5. GHIFU Technology Co., Ltd** [www.ghifu.com](http://www.ghifu.com)

GHI FU Tech. has established in 2005, and has been based on the research principle of preventive medicine for a long time. The Company has long-standing alliance with Japan Medical Research Unit, seeking the most convenient, safest and most economical way to improve the life of human beings based on physical principles. Our core technique is patented germanium chip which the far-infrared rays emissivity can reach 98% without electricity or heating, and easy to maintain. The product also pass Biocompatibility tests (skin sensitization/ skin irritation/ in vitro cytotoxicity. ) GHI FU Tech. is a medical device manufacture with ISO 9001 & 13485 certified, and the main product are belt/neck/wrist/knee support and eyes mask. We have our own brand-“Light ion Life,” and we can do PB/ODM/OEM as well.

**6. HUNG YI MEDICAL INSTRUMENT CO., LTD.** [www.hy-inst.com.tw](http://www.hy-inst.com.tw)

Our company name is HUNG YI MEDICAL INSTRUMENT CO., LTD. We are a professional autoclave manufacturer and produces autoclave more than twenty years. Our company possess professional technology especially in controlling the quality of the products and have the ability to help the customers to solve their problems.

**曼谷台灣貿易中心**

**Taiwan Trade Center, Bangkok**

**7. IMEDIPLUS INC.** <http://www.imediplus.com/>

IMEDIPLUS Inc. is an exuberant and future-oriented biotechnology company recruiting doctors, specialists on the cutting edge of electronic components, and professionals of global marketing. We are one of the advanced medical electronics companies starting from the urgent needs of cardiac care medicine. In view of the importance of heart monitoring and emergency procedures, the research and development of clinical medicine and prospective electronic equipment are combined with technology of innovative medical electronic components, marketing strategies, and commercial operation mode. We are able to develop high-end cardiac care equipment with high-tech, high threshold, high added value, and high-growth, and to provide solution of cardiac care for the needs of market.

**8. Liverage Biomedical Inc.** <http://www.lbi.com.tw>

Liverage Biomedical Inc, LBI, was established in 2013, is committed to phototherapy, medical research, development and manufacturing, in which light medical appliances are classified into PHOTOCHEMISTRY and PHOTOPHYSICS.

**9. Medimaging Integrated Solution Inc.** [miis.com.tw](http://miis.com.tw)

With the extensive experience in the research & development of digital medical imaging optical photography, MiiS is committed to innovate the preventive medicine for utmost clinical outcomes., develops Horus Scope's own brand, sells in more than 60 countries, and aspires to become a world-class provider of innovative solutions for medical digital imaging, assisting medical units to detect diseases anytime anywhere Suffering, solving the problem of uneven distribution of medical resources, improving the quality of medical care and quality of life, and achieving the goal of preventive medicine.

**10. North-vision Tech. Inc.** <http://www.north-vision.com>

North-vision's core competitiveness is the strong innovational capabilities within our R&D force. We mainly focus on Medical Device RD research. Starting from PCR Machine, now we have the Products of Multi-parameter Patient Monitor, Pulse Oximeter, Portable ECG and etc. Just like to Emphasize

曼谷台灣貿易中心

Taiwan Trade Center, Bangkok

that our Products are not only Stand alone, but can connect to the HIS or cloud through wire or wireless including RS-232, USB, Bluetooth, Wifi, 4G and etc. Sincerely, we are looking for a long term partner relationship with you.

11. **Phalanx Biotech Group.** [www.phalanx.com.tw](http://www.phalanx.com.tw)

Phalanx Biotech, headquartered in Taiwan for 17 years, is dedicated to the development of genetic detection platform, incorporated with microarrays, Next Generation Sequencing (NGS) and big data analysis for health informatics, positioning as the only microarray developer in Asia. The core services of Phalanx Biotech lie upon five areas within reproductive medicine (prenatal/postnatal testing), population medicine, medical oncology, hepatic DNA methylation genetic testing, and scientific research services.

12. **ProtectLife International Medical Inc.** <http://www.protectlife-intl.com>

ProtectLife, established in 2010, focus on researching and manufacturing POCT analyzer and Reagent rotor/disc. Our POCT analyzer uses the full spectrum module which can cover all spectrum data in different reagent. It supports the high scalability of reagent rotors/discs. Our Reagent rotor/disc uses microfluidic chip technology which only requires 60-130 $\mu$ L sample volume for testing and gets accurate test result in 15 minutes. We now get 18 certifications from TFDA, CFDA and CE and 20 certifications of patents. This analyzer can conduct analytical measurement on veterinary and human being also applies to food safety and environment detection. Now our products already enter into Taiwan, China, South-East Asia and Euro market.

13. **Starline Biotech. Co., Ltd.** [www.bioline.com.tw](http://www.bioline.com.tw)

Starline Biotech., a company with over 30 years of history in Taiwan. With no extravagant nor fluttery words, we emphasis honesty and value clinical evidence to every product we made. With highest quality standard, we made every product to bring a healthier choice for our customers. This is the promise we have for you and family.

**曼谷台灣貿易中心**

**Taiwan Trade Center, Bangkok**

**14. S&T BIOMED CO., LTD.** [www.stbiomed.com](http://www.stbiomed.com)

S&T BIOMED CO., LTD. was established in December 2016, the core concept of the S&T team, that is, the hope of a simple, rapid and accurate testing of cancer through the non-invasive biomarker testing service platform, effective disease management.

The S&T team will work closely with other research and development units to promote the realization of cancer rapid screening and other cancer screening technologies towards the productization of innovative medical equipment, and will strive to promote the product into the National Health Service program of the Ministry of Health and Welfare, providing the best solutions for future accurate diagnosis and treatment, in order to achieve the greatest well-being of the nation and the world.

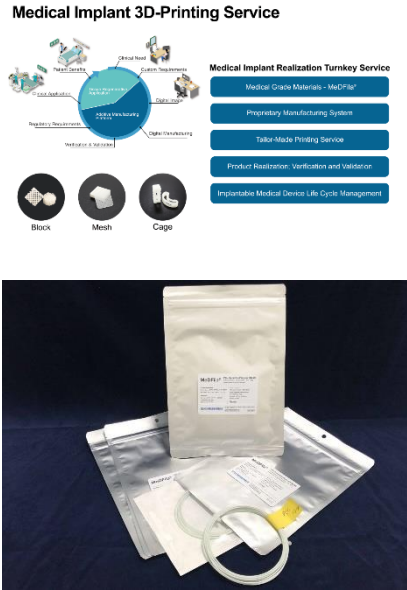

**15. VENATRON ENTERPRISE CO., LTD.** <http://venatron.taiwantrade.com.tw>

Cozmetina, based in Taiwan, is committed to achieving people's desire and pursuit of beauty through the search for rare, highly active extract plants in nature and the process of keeping ingredients constant. Launched in June 2010 with pure clean soaps, the vision of skin texture repurification has been realized. A clean and pure soap, suitable for all ages, with different skin and hair follicle characteristics to use, and actively realize the "when their own beauty master" vision, so that users enjoy the most peace of mind, clean, unburdened natural life.

**16. Taiwan Advance Bio-pharmaceutical Inc.** <https://www.biotest.com.tw/>

In 2000, Taiwan Advance Bio-Pharmaceutical Incorporation (TABP) received the technology transfers and assets from DCB, including the related laboratories, factories, equipment, 7 key techniques, 34 products and 46 patents. TABP worked with The Biomembrane Institute (TBI) in the foundation of Glyconex Incorporation focused on the research of developing glycoprotein medication.
